Examiner

The Unit* has established that the examiner has agreed to evaluate the thesis. The examiner can be internal or external to the Unit* or University. GPS is responsible for sending the examiner a copy of the thesis. The examiner must be able to examine the student and the thesis at arm's length, free of conflict of interest from any source. The test of whether a conflict of interest might exist is whether it could appear to a reasonable outside person that evaluation of the thesis may be affected by anything other than the merits of the thesis document. The candidate's Unit* must take reasonable steps to avoid recommending an examiner whose relationship with the candidate, the supervisor, or their research could be seen as jeopardizing an impartial judgment on the thesis. Any individual asked to examine a thesis must declare possible sources of conflict (see checklist).
